REFERENCA O USPEŠNEM DELOVANJU GASILNEGA SPREJA BONPET

CONFIRMATION ABOUT SUCCESSFUL FIRE EXTINGUISHING WITH BONPET SPRAY

ŠTUDIJA PRIMERA – OPIS DELOVANJA

Dne 14.6.2017 se je na regionalni cesti Prebold – Trbovlje zgodila nesreča in sicer je prišlo do požara pri motorju avtomobila. Kljub gašenju motorja s peskom - zemljo in travo ni bilo mogoče ustaviti ognja. Ob tem smo ustavili mimo vozečo vozilo, ki nam je v pomoč pri gašenju ponudilo gasilni sprej Bonpet. S sprejem smo uspešno pogasili ogenj in preprečili nadaljnje širjenje ognja ter popolno uničenje avtomobila. Ob zahvali vozniku in sopotnici vozila, ki sta pomagala je bilo izrečeno, da je sprej slovenski proizvod in da ga lahko obdržimo saj lahko sprej še večkrat uporabimo.

CASE STUDY – DESCRIPTION OF THE OPERATION

Wednesday, June 6, 2017 we were involved in the car accident on the regional road Prebold – Trbovlje. A car burst into flames. We tried to extinguish the engine on fire with sand-soil and grass but that did not stop the fire. We stopped an over driving vehicle and they offered us a Bonpet extinguishing spray to put out the fire. With offered spray, we put out the fire successfully, stopped further spreading of fire, and prevent total car destruction. We expressed our gratitude to a drive by driver and his passenger for their help and learned that the extinguishing spray was a Slovene product and can be kept and used for furthermore use.
